Telescopic arms

You can't trip over things that hang on the wall. Which is why we created ropimex® telescopic screens, the screen that's only there when it's needed.

After use, simply push the screen together and turn it towards the wall. Your room is back to looking its familiar self.

To a max. 210 cm
Model RTS:
swing-out

To a max. 220 cm
Model RTI:
Fold-down and
swing-out

From 220 cm
Model RTH:
with hooks and
ceiling mounts

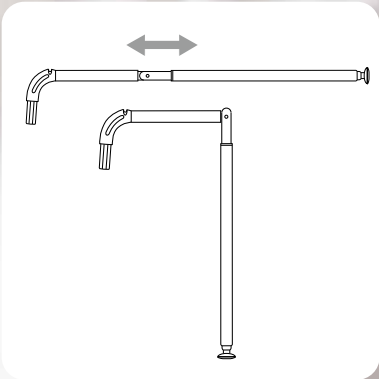

Telescopic arms

Optimized in handling, cleaning and disinfection

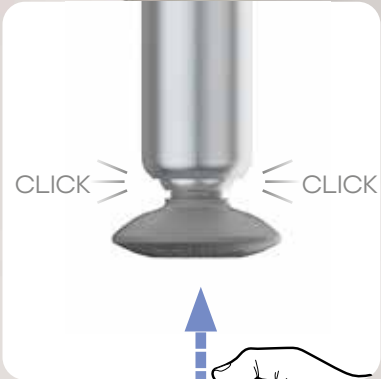

Smooth telescopic tubes and plastics for one hygiene-friendly surface.

Model RTI: Bending mechanism seamlessly integrated.

If the curtain rings are loaded they release themselves from the eyelets of the curtains and therefore avoid injuries and damage to the system.

Tail with locking - fixed telescope at rest

Telescopic arms

Model **RTS** - swing-out

Telescopic screen Model RTS - swing-out

ropimex® - telescopic screens are made of anodised aluminium, high-quality, glass-fibre reinforced plastics. Easy to clean and to disinfect.

Model	Telescopic screen extension	Weight	Curtain rings included in the scope of delivery 
RTS 1.2	55 cm → 120 cm 	0,5 kg	
RTS 1.5	65 cm → 150 cm 	0,6 kg	
RTS 2.1	85 cm → 210 cm 	0,7 kg	

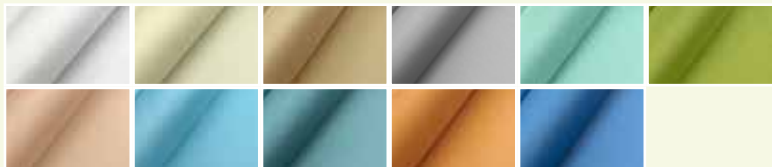

IF they are loaded they release themselves from the eyelets of the curtains and therefore avoid injuries and damage to the system.

Telescopic arms

Model **RTH** - Fold-down and swing-out with end support

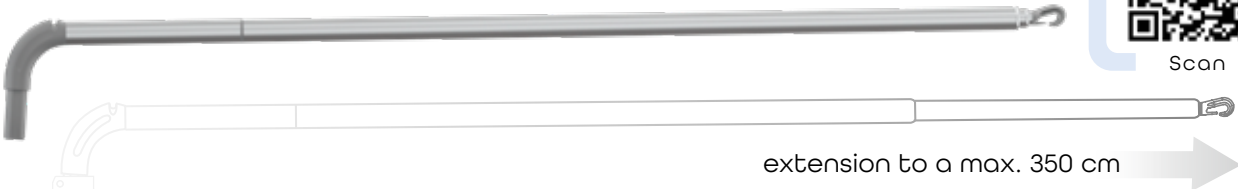

Used in combination with a height-adjustable ceiling mount RST or with an end support (GL), with the longest telescopic arm RTH 350 you can achieve a screen length of 350 cm.

Telescopic screen Model RTH - Fold-down and swing-out with end support

Scan

For installation anywhere in the room: ceiling mount

For wall-to-wall installation: end support (GL)

ropimex® - telescopic screens are made of anodised aluminium, high-quality, glass-fibre reinforced plastics. Easy to clean and to disinfect.

Model	Telescopic screen extension	Weight	Included in the scope of delivery
RTH 300	300 cm with hook at the distal end 142 cm → 300 cm	1,0 kg	Wall bracket WH 95 
RTH 350	350 cm with hook at the distal end 152 cm → 350 cm	1,1 kg	Ring VR End support GL 

Model **RST** - adjustable ceiling mounts

Model	Extension	Room height From - to
RST 4	45 -75 cm	245 - 275 cm
RST 8	75 -135 cm	275 - 335 cm
RST 10*	110 -200 cm	335 - 400 cm

*not illustrated

The glass-fibre reinforced polyamide disc at the bottom end of the ceiling mount is used to hold the joints of the telescopic screens RTH.

Brackets for telescopic screens

Model **WH** - Wall brackets
Model **GSH** - Brackets for equipment rails

WH: Wall brackets

Model			Dimensions	
WH 95	Wall bracket, die-cast aluminium, concealed screws, adjustable to compensate for unevenness of the wall, colour coated, colours: white (RAL 9010), signal grey (RAL 7004)	CE	Height	10 cm
			Width	6 cm
WH 95 PL	For walls with low strength, e.g. plasterboard. Wall bracket for all telescopic screens. White or grey, concealed screws, with backplate 20/15 cm	CE	Height	15 cm
			Width	20 cm
WH	Wall bracket	CE		
WH/LA	Wall bracket for bridging service ducts up to 15 cm	CE	Height	16,5 cm
			Width	6 cm
WH/F	Wall bracket with knurled thumb screw			

GSH: Brackets for equipment rails

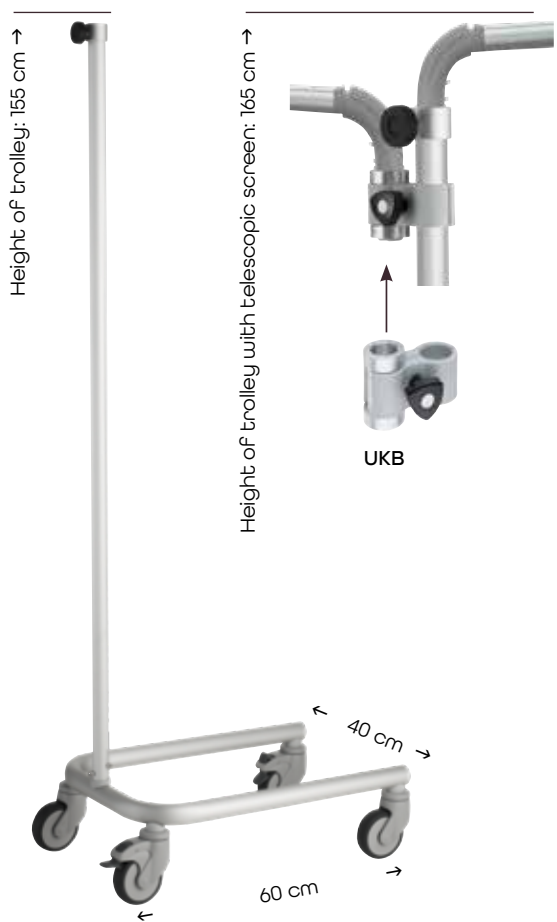

Model			Dimensions	
GSH/95	Bracket for equipment rails, adjustable tilt	CE	Height	10 cm
			Width	6 cm
GSH/N	Bracket for equipment rails, wall-supported, height-adjustable		Height	55 cm
			Width	5 cm
GSH/DK	Bracket with "double clamp" for equipment rails, height-adjustable		Height	55 cm
			Width	5 cm
GSH/F	Bracket for equipment rail 25/10 mm, fixing by means of clamping screw		Height	13,5 cm
			Width	4 cm

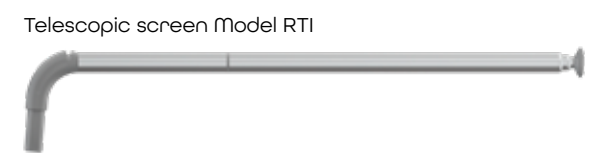

Mobile screens Model FG95

FG95 trolley

Model	
FG95	Trolley , 155x60x40 cm (H/D/W), 4 castors ø 100 mm, 2 of which are lockable. Aluminium anodised, glass-fibre reinforced polyamide, corrosion-resistant, disinfectable. The FG 95 trolley can be fitted with all telescopes of the 'RTI' model series.
LA	Electrically conductive castors available for an extra charge.
UKB	Universal clamp for holding a second telescopic screen - RTI 1.3 or RTI 1.6.

We recommend the following fitout

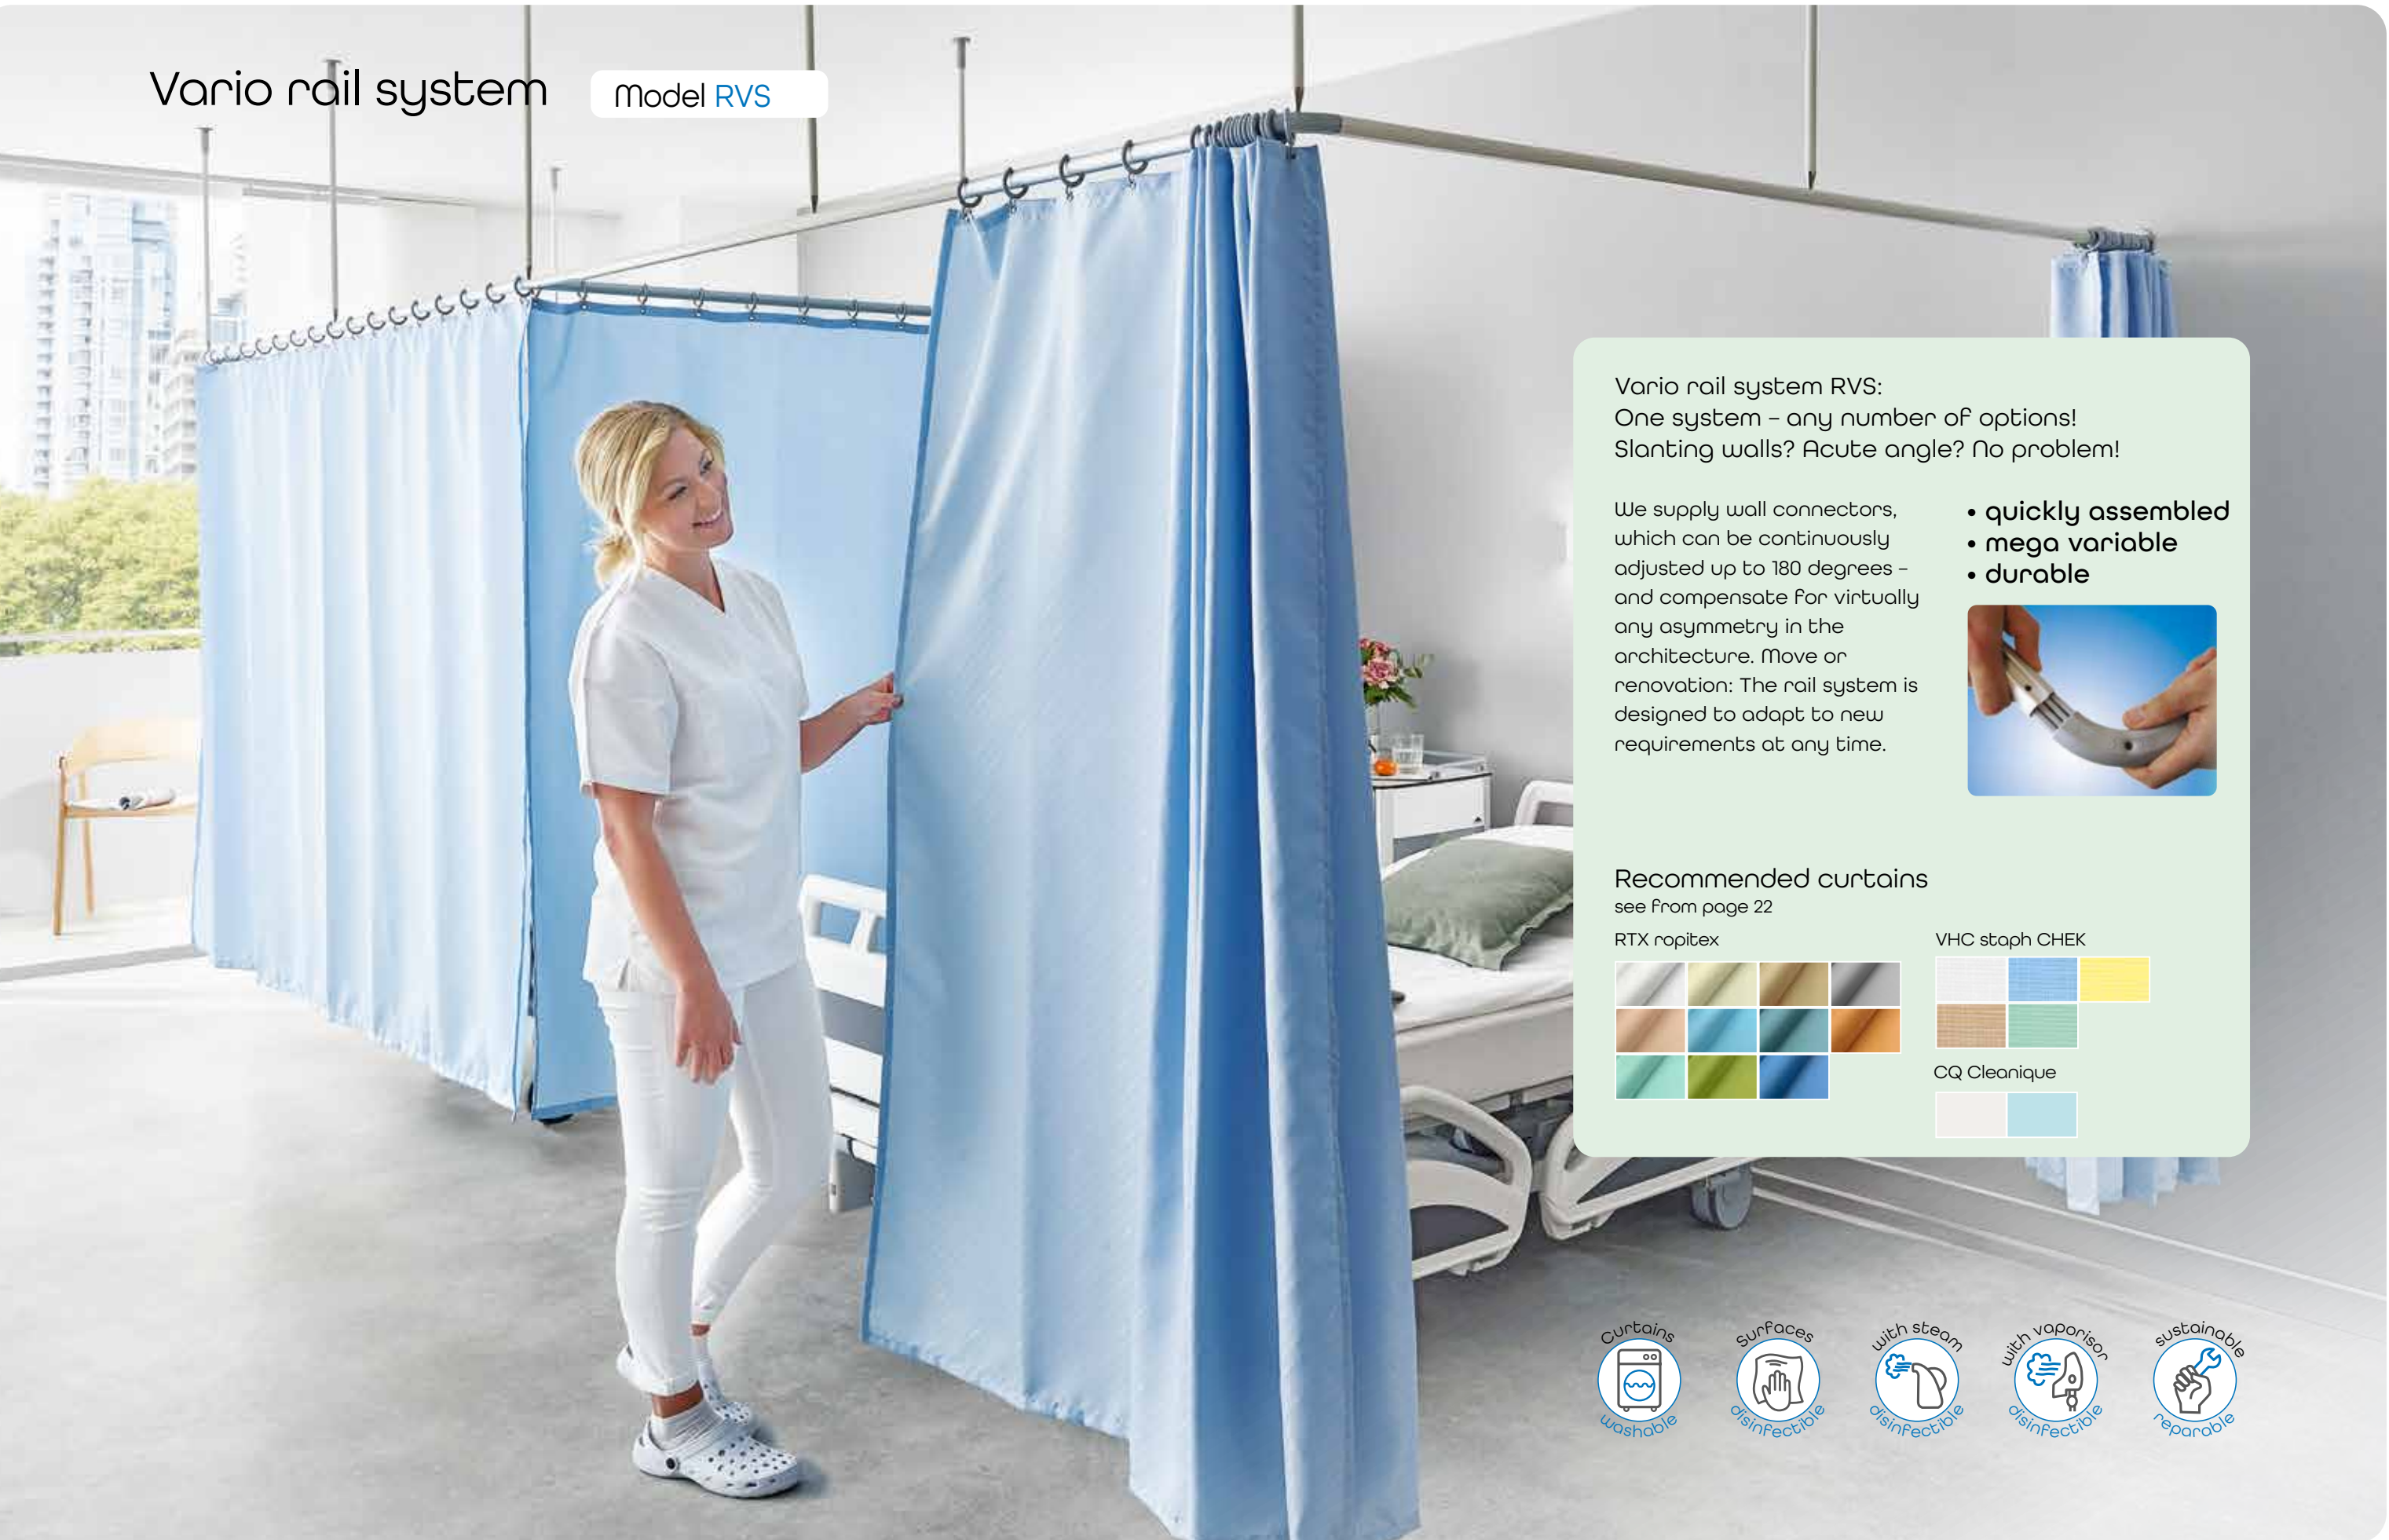

With one telescopic screen		
RTI 2.2	Telescopic screen, Fold-down, extension 220 cm	CE
With two telescopic screens and UKB clamp		
RTI 2.2	Telescopic screen, Fold-down, extension 220 cm (not suitable for the UKB clamp)	CE
RTI 1.6	Telescopic screen, Fold-down, extension 160 cm	CE
RTI 1.3	Telescopic screen, Fold-down, extension 130 cm	CE

on request

RVS/SB

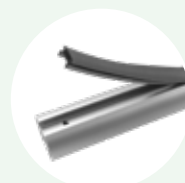

RVS/SR

Curtain ring RVS/VR
made of unbreakable
polyamide. Releases itself
if overloaded (approx.
2 kg).

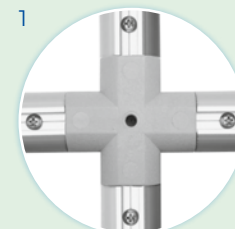

Ringstopper: For fixation of a curtain ring at the
beginning or the end of the rail.

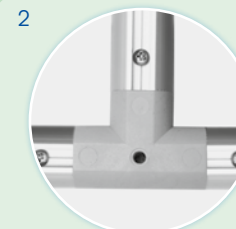

Silicone cover profile
RVS/AP

With the RVS connectors, you can create cabs as you wish

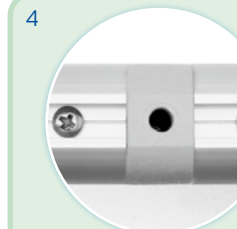

Cross-connector
(RVS/KV)

T-connector
(RVS/TV)

Corner solutions
RVS/BV
(radius 60 mm)

Change later:
simply disconnect the
profile tube and ins-
tall the connector of
your choice, e.g. linear
connector RVS/LV

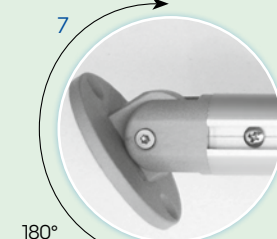

RVS-Wall connections - for every requirement

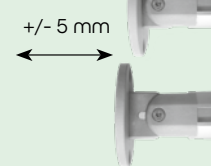

Free-standing end:
End cap RVS/EK
stops the curtain.

Straight at the wall:
Wall connector RVS/WA

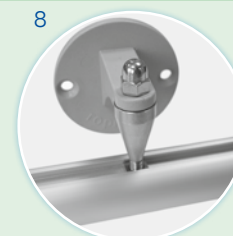

Sloped walls, acute angles: the Vario wall connector
RVS/WAV compensates for and levels out asymmetries
up to 180° and length differences up to +/- 5 mm.

Flexible to the ceiling - RVS ceiling connectors

**Mounted directly
under the ceiling:**
with ceiling bracket
RVS/DH (distance
from top of ceiling
to bottom of rail
approx. 6 cm).

**Easy above the lin-
tel:** e.g. at windows
or doors using the
wall connector
RVS/WAS

**Suspended at
headroom height:**
with the adjustable
ceiling mount
(+/- 20 mm) RVS/DS

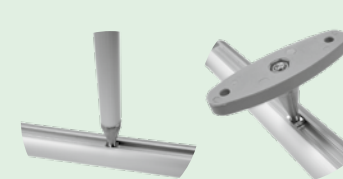

**For free-standing
end RVS rails:**
adjustable double
ceiling mount
(+/- 2cm) RVS/DDS

Cover cap for
suspended
ceilings

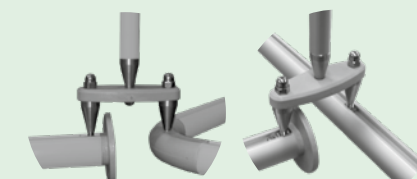

RVS/DSPL
Reinforcing
disc for ceiling
support for
e.g. plaster-
board ceilings

Anchoring on profile rail:
possible along the whole length by
means of square nut; For adjustable
ceiling mount RVS/DS or with ceiling
bracket RVS/DH. Max. spacing: 2 m.

Anchoring via all connectors:
Standard threaded hole for screwing
in the adjustable ceiling mount RVS/DS
or the ceiling bracket RVS/DH
ensures firm support.

Spacer:
RVS/AH for
Corner- and
T-Solutions.

ropimex® convincing product quality for maximum customer satisfaction

ropimex® HyGentle: Product design and material combination for maximum hygiene

Product design: Hygiene starts with the design. Corners, angles or geometries that are ill-suited for cleaning and disinfection are avoided to the greatest possible extent.

Material composition: Cleanability and disinfectability are prioritized in the selection of the materials required for manufacturing the product. This is aimed at achieving an optimum where soiling and microbiological pollution are concerned. Porous, absorbent surfaces must be avoided.

Cleaning and disinfection: We test and document the materials of our products in terms of their natural microbial contamination, just as we document their cleanability and disinfectability with commercially available detergents and disinfectants.

Satisfied customers around the globe

Since 1976, ropimex® has been busy finding solutions to protect the privacy of the sick and those in need of care.

The telescopic screens of the early years are still in use today. From them a system developed whose diversity, use and combination options provide a suitable solution for each and every customer.

All these properties, top advice from authorised stockists and the fastest possible delivery have secured ropimex® satisfied users in over 60 countries, all over the world.

ropimex® Our commitment

Scan

Ecological / sustainable

- ropimex® products are 98 % sourced in Germany and 100 % manufactured at the plant in Neunkirchen/Saar.
- consistent recycling of our waste such as aluminium, Fabric scraps, cardboard and plastic
- we are greatly reducing our paper consumption. Our goal: paperless office
- gradual conversion of electricity-intensive consumers
- our products are phthalate-free

Tree sponsor - ropimex® supports reforestation project from PLANT-MY-TREE®

Social behaviour

- Well-being is a priority. We are happy to invest in the environment of the company
 - whether it's spacious, open-plan offices with modern equipment,
 - friendly communal areas,
 - flexible working hours or
 - homeoffice
- thanks to these practical measures, the sickness rate is low, the fluctuation rate is virtually zero.

Commitment

We also want those to benefit who are unable to participate in the performance process, or only to a limited extent. For years, we have been involved as a partner in the Lebenshilfe organisation and other measures, particularly those that support young people.

- **Sharky Care – a heartfelt project that makes a difference**
Together with the Sharky Swimming School in Cologne, we support free swimming lessons for children with cancer. After their therapy, the children regain confidence in their bodies, experience movement in the water – and, above all, carefree moments of joy. We are grateful to be part of this valuable initiative and to be able to contribute to more lightness and joie de vivre in this way.

Medical device

ropimex® products meet the requirements of the regulatory specifications for medical devices in accordance with the annex to Declaration of Conformity EU 2017/745, ropimex® visual protection systems.

The systems are designed so that a patient zone / intimate zone can be created for virtually any existing condition - stationary or mobile.

ropimex® screen systems are customisable accessories for medical devices such as patient beds, treatment tables and treatment chairs in medical facilities.

Certified according to:

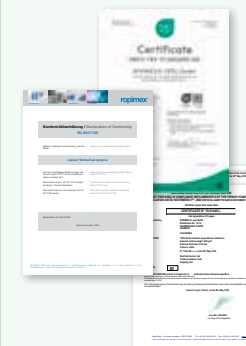

DIN EN ISO 9001:2015 and DIN EN ISO 14001:2015

The certification body of TÜV SÜD Management Service GmbH certifies that the company ROPIMEX R. OPEL GmbH, Bildstocker Str. 12-14, 66538 Neunkirchen, Germany has **introduced and applies a quality management system** for the scope of manufacture and sale of privacy and soundproofing elements. An audit was performed, Order No. 707145152. Proof has been furnished that the requirements according to DIN EN ISO 9001:2015 are fulfilled.

Furthermore, the company has **introduced and applied an environmental management system** for the production and sale of privacy screens and soundproofing elements as well as biocidal products, disinfectants and coating systems. An audit has provided proof that the requirements of DIN EN ISO 14001:2015 have been met.
